

Yamazaki Mazak QTN-150/300 CNC Turning Center (2004) Made in Japan

Machine Overview

The **Yamazaki Mazak QTN-150/300** is a reliable CNC turning center designed for precision machining and stable industrial production.

Equipped with the **MAZATROL 640T control system**, **8-inch chuck**, and **12-station turret**, the machine offers flexible machining capability for a wide range of turning applications.

The machine is located in **Osaka, Japan** and available for export.

Asking Price:

USD 18,800 (FOB Japan)

FOB price does not include:

- Inland transport in Japan
- Ocean freight
- Marine insurance

CIF quotation can be provided upon request depending on the destination port.

Payment Method

Credit card payment available via Stripe (USD).

Secure and smooth international payments are supported.

Bank transfer in USD is also accepted.

We can receive USD payments via our international bank account (Wise).

Key Features

- ✓ **Reliable CNC turning center by Yamazaki Mazak**, a globally trusted Japanese machine tool manufacturer
- ✓ **MAZATROL 640T control system** for efficient conversational programming and stable machining
- ✓ **8-inch chuck with 12-station turret** for flexible machining operations
- ✓ **Spindle speed up to 5000 rpm with 15 kW spindle motor** for stable cutting performance
- ✓ **Maximum turning diameter Ø280 mm and turning length 520 mm** for various industrial components

◆ Competitive Advantage for Buyers

- ✓ **Reliable Japanese CNC turning center by Yamazaki Mazak** for stable industrial machining
- ✓ **Stable machining performance** with MAZATROL control and robust spindle design
- ✓ **Versatile machining capacity** suitable for a wide range of industrial components
- ✓ **Cost-effective solution** compared with purchasing a new CNC lathe
- ✓ **Ready for export from Japan** supporting international buyers and distributors

🔍 Why This Machine?

- **Mazak quality and reliability** – Built by Yamazaki Mazak, one of the world’s most trusted machine tool manufacturers
- **Efficient CNC control** – MAZATROL 640T provides intuitive programming and stable machining performance
- **Versatile machining capacity** – Ø280 mm turning diameter and 520 mm turning length support a wide range of applications
- **Flexible tooling** – 12-station turret enables quick tool changes and efficient machining operations

🔧 Machine Condition & Running Test

- The machine is stored in a factory in **Osaka, Japan**
- **Power-on and basic operational checks** have been performed
- **Inspection and test run can be arranged upon request**
- Available for **export from Japan**
